## IV Firmware Update

The player can be upgraded or reset by the software program stored inside the installation CD.

1. Insert the installation CD. Open the file \Firmware Upgrade tool\ConsumerUpdate 3.1.2.0\setup.exe
2. Install and run the program.
3. Click "Open" and select the firmware file (.rfw)
4. Click Update to start the firmware upgrade process

**Note: Firmware upgrade is to improve and optimize the performance of the player, but the normal operation would not be affected without the firmware upgrade. However, an inappropriate upgrade may damage the player.**

## V Appendixes

### 1. Video File Format Conversion

The file format WMV, RM, AVI, VOB or DAT could be converted to AVI format by a software program

1. Insert the installation CD. Open the file \Firmware Upgrade tool\ConsumerUpdate 3.1.2.0\setup.exe
2. Install and run the program.

3. Click the "Add" button and a dialog will be pop out.
  - Resolution: 320 x 240 (set as default)
  - Source File: Select the source file
  - Target File Path: Select the folder for saving the converted file
